

# PRESS RELEASE

## Handbook on Green City Elements

Greenvolve, your go-to consortium for all things sustainable, is thrilled to present the **Handbook on Green City Elements**. Get ready to ignite a revolution in urban living as we empower you and your community to shape greener, cleaner and healthier cities through informed decisions.

### Our Vision:

1. **Empowerment:** Greenvolve is providing knowledge in your hands to actively participate in creating Green Cities.
2. **Civic Engagement:** Together, we can turn EU objectives in environment, climate, and energy into reality.
3. **Handbook:** Your comprehensive guide to building a sustainable urban lifestyle is here!

### What You Can Expect:

- A user-friendly collection of Green City Elements, highlighting their benefits and challenges.
- Insights on how these elements work together, making cities greener and your life better.
- Eye-catching e-learning material suitable for all ages as e-cards and as a downloadable handbook.
- A comprehensive resource with introductions, descriptions, challenges, best practices, and links for further information.

### Categories of Green City Elements:

The Handbook covers 5 focus areas of Green Cities today: CLIMATE CHANGE MITIGATION & ADAPTATION, CIRCULAR ECONOMY, DIGITALISATION and ENERGY TRANSITION. Whether you're a citizen eager to understand urban sustainability or a municipality aiming to involve residents in green initiatives, this handbook serves as a bridge.

Join the movement, and supercharge your city.
